## **DETAILED ACTION**

### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 11/18/03 has been considered by the examiner.

### ***Additional Prior Art Cited***

Yamaguchi discloses a multiple beam scanning apparatus having a tilted light source unit.

### ***Allowable Subject Matter***

Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: the cited prior art fails to teach or suggest (1) an optical scanning apparatus (claims 1-6), (2) an image forming apparatus (claim 6) and a method of manufacturing an optical scanning apparatus (claim 7) having a light source, a deflector and a scanning lens located along an optical axis, and an aperture having a substantially square shape located between the light source and the deflector; wherein "the light source is tilted relative to the optical axis by an angle of about 45 degrees, and generates a laser beam such that the laser beam which is impinged on the reflective surface of the deflector is light polarized in a direction between a direction that is parallel to a light deflection direction and a direction that is perpendicular to the light deflection direction" (claims 1, 6 and 7, last paragraph). Claims 2-5 are dependent claims and thus, allowable at least for the same reason.

Art Unit: 2872

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
